

RNs... Ever considered being a home nurse?

Caring for a patient in their own home can be an incredibly rewarding experience. With over 2 years' recent experience as an RN, a mature manner, impeccable presentation and an instinctive and discreet 'bedside manner', you could be a part of our revered Homecare team across the capital and enjoy:

- 1** Exceptional working conditions, competitive rates of pay, career support and development training
- 2** Opportunities to use and enhance your nursing skills and abilities in untypical kinds of settings
- 3** Being a vital part of our clients' care plans enabling them to stay where they feel most comfortable during illness - at home...

Telephone our
Head of Homecare,
Michele Jogee on
020 7201 1140 to
discover the joys of
home nursing.
